

Monster Mash-Up

# Monster Mash-Up

- X You will each have a set of cards with a list of Halloween monsters – 10 of them
- X Look at the list and group them however you want
  - X Be creative!
- X You can look up the monsters, just use info from the cards, whatever
- X We'll share out our lists at the end of the activity

## How This Connects

- X In your work for this class, you're doing something similar to what we just did.
- X **Synthesis** is the process of combining sources based on their ideas and findings
- X Usually, synthesis involves selecting themes
  - X Just like you did for your categories!
- X Your goal: move beyond summarizing and into synthesis.

## Source Mash-Up

- X Again in groups, this time with sources
- X Review the abstracts
- X Brainstorm a list of possible themes – how do these sources connect?
- X We'll come together and discuss again

HAPPY HALLOWEEN!
